G. W. Swank
P. O. Box 638
Moab, Utah

Dear Sir:

This is to acknowledge receipt of your notice of intention to drill Well No. Fee 1, which is to be located 330 feet from the south line and 2310 feet from the east line of Section 13, Township 21 South, Range 23 East, SLEM, Grand County, Utah.

Please be advised that approval to drill said well is granted subject to the following conditions:

1. Set 60 feet surface casing and cement back to surface;
2. State expected total depth and objective formations on an amended form.

However, said approval is conditional upon a plat also being submitted, in accordance with Rule C-4, General Rules and Regulations and Rules of Practice and Procedure, Oil & Gas Conservation Commission, State of Utah.

Approval terminates within 90 days if the above mentioned well is not spudded in within said period.

Please take note that should it be necessary to plug and abandon said well you are hereby requested to give advance notice of the date and time said plugging will take place to one of the following named individuals, by phone or otherwise, in order that our petroleum engineer may be present to inspect the manner in which the well is being plugged:

C. A. HAUPTMAN, Petroleum Engineer:
Office Phone: DA 2-4721, Ext. 438 or DA 8-0701
Home Phone: EM 4-6790.

Dear Mr. Swank:

Re: Well No. Fee 1, SW SW SE,
Sec. 13, T. 21 S, R. 23 E,
SEBM, Grand County, Utah

Your attention is directed to Rule C-22, General Rules and Regulations and Rules of Practice and Procedure. Said rule provides for the submitting of a report of operations and well status report to the Oil and Gas Conservation Commission.

Your compliance with said rule is hereby requested.

We are enclosing some copies of Form OGCC-4, "Report of Operations and Well Status Report", for completion and return. For your convenience, Rule C-22 has been printed on the back of said form. Federal Form 9-329, Lessee's Monthly Report of Operations, may be used in lieu of Form OGCC-4.

Please note that if two legible copies, carbon or otherwise, of the report filed monthly with the United States Geological Survey on Form 9-329, are also filed each month with this Commission, it will be deemed compliance with Rule C-22, Paragraphs 1, 2, 3 and 4.

Yours very truly,
OIL & GAS CONSERVATION COMMISSION

CLEON B. FEIGHT
Executive Secretary

*Well turned over to Charles R. North.
Who is now dead.*

March 28, 1960

Mr. Tommy North
Cisco,
Utah

Dear Mr. North:

I am writing in reference to the well in the Cisco Area which you and Mr. Jerry Swank were partners. The well is located in the SW SE of Section 13, Township 21 South, Range 23 East, SLM, Grand County.

This well has some tubing in it as well as casing. The well has been standing open for quite a period of time and definitely needs to be plugged and abandoned. The Commission would like for you to notify them of your plans for the well. They feel this particular well has been in a temporarily abandoned status long enough.

The State, of course, always wishes to cooperate in any way possible with the operators; however, it feels in this case, some action may be needed.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

Harvey -

I'm attaching copies of what information we have on the Swanik - North well. Looks like pipe is set through all zones except the Morrison Gas show.

Doesn't look like I'll get down there until the week after next. Will try to make it about June 1st. Will probably only be a one day visit. We only have \$19. left in our "Out of State" travel money until July 1st, so our trip to Durango will have to be after you get back from vacation.

Bob

WALTER L. BUDGE

ATTORNEY GENERAL

August 9, 1961

G. W. Swank
P. O. Box 638
Moab, Utah

Dear Mr. Swank:

Demand is hereby made upon you to present evidence to the Utah Oil and Gas Commission of the plugging of Well No. Fee 1, located in the Southwest Quarter of the Southwest Quarter of the Southeast Quarter of Section 13, Township 21 South, Range 23 East, Grand County, Utah. You and Mr. Charles R. North did enter into partnership for the drilling and operation of said well.

The Oil and Gas Commission informs this office that they have requested the plugging on several occasions without anything being done by you to comply with their request. Therefore, unless the following steps are taken, we will commence action to forfeit the bond and for a court order compelling you to commence plugging within 10 days of the receipt of this letter:

- (1) The Oil and Gas Commission should be contacted and the specifications for the plugging obtained from their engineer.
- (2) Evidence of operations ~~for~~ plugging must be presented to the Commission within 10 days unless the Commission grants an extension for an additional period.

Very truly yours

RONALD H. BOYCE

August 16, 1961
Grand Jct. Colo.

Utah oil & Gas Comm.
State Capital
Salt Lake City, Utah

Dear Sirs;

I am in receipt of letter from the
attorney Gen's office requesting the Plogging
of Well at Cisco Utah, in SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of SE $\frac{1}{4}$
of sec. 13. Charles R. North & myself drilled
in 1959. At time we just working on
same, I gave C.R. North full title to same.
However since he is dead, and I am on Bond
I will make every effort to start plogging
as soon as possible.

I would like to ask for an extension
of time, as I will need to make a contract with
some one who has a rig. The man I would
like to get to do the job has his rig on

in either well, and if he can't do it I'll
have to contact another contractor. I
will also need to contact the C.R. North
people as I gave them a Bill of Sale to
Well & equipment.

They informed me some time ago
they were going to either plug & abandon
or try to work the well over. So if you
can't grant me an extension of time I'll
make every effort to get it plugged as soon
as possible.

Yours Truly,
G.W. Swank
R.R. 2
Grand Jet, Colo.

September 20, 1961

MEMO FOR FILING:

Re: Well No. Fee 1, SW SE Sec. 13,
T. 21 S., R. 23 E., Grand County

On Wednesday, September 20, 1961, Mr. Charlie White called regarding the abandonment of their well. We approved the following plugging program:

Mr. White will attempt to cut the 4½" casing at about 470' and pull that pipe. He will place a 20 sack plug starting at 10' below the top of the remaining casing stub (cover the top of the Morrison and the entire Dakota) and a 10 sack plug at the bottom of the surface casing. He will plug the casing at the surface and set an abandonment marker.

ROBERT L. SCHMIDT,
CHIEF PETROLEUM ENGINEER

RLS:kpbb

Harvey will witness the operations
on Friday morning, Sept. 22, 1961.
